PROFILE

Computer Science student (Hawassa University, class of 2027) building full-stack web apps with React, C#/ASP.NET Core and SQL Server — from database design to the browser. Shipped a firm-wide Meeting Attendance System during a two-month internship at Commercial Bank of Ethiopia's Digital Factory. Open to internships, junior developer roles and remote work (Addis Ababa or remote).

SKILLS

Frontend	React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Flutter (basics)
Backend	C#, ASP.NET Core Web API, REST design, JWT auth, Python (FastAPI basics)
Database	SQL Server, PostgreSQL, relational schema design, constraints & validation
Testing & Tools	Swagger, manual & integration testing, Git, GitHub, Docker, VS Code

EXPERIENCE

Software Developer Intern — Digital Factory

Commercial Bank of Ethiopia (CBE), Addis Ababa | Jul 2026 – Aug 2026

- Built the CBE Meeting Attendance System (web & mobile) end to end: React + TypeScript front end, ASP.NET Core REST API, SQL Server schema with constraints and validation.
- Implemented role-based access control and employee/session management, replacing paper sign-ins with queryable records.
- Built live analytics dashboards and exportable PDF/Excel reports; tested endpoints with Swagger.
- Worked through Git pull-request workflow and Docker.

PROJECTS

CBE Meeting Attendance System

React · TypeScript · ASP.NET Core · SQL Server · Docker

Full-stack attendance platform: employees & roles, sessions, dashboards, PDF/Excel export. Source: github.com/redu-weret (frontend + backend).

ETA Bingo — Real-Time Multiplayer Game Platform (Telegram Mini App)

Python · FastAPI · WebSockets · SQLite

Built end to end: live game rooms with WebSocket state broadcast, player wallets, role-based access. Source private — details on request.

BusinessMate v1 (in progress)

C# · ASP.NET Core · EF Core · PostgreSQL · React

Multi-user business management mini-suite: auth, products, sales, with own authenticated API and database.

EDUCATION

B.Sc. Computer Science (expected Jun 2027)

Hawassa University

Coursework: programming, databases, networks, software engineering.

CERTIFICATES

- Software Developer Internship — Certificate of Completion, CBE Digital Factory (Jul 2026)
- Programming Fundamentals Nanodegree — Udacity / Accenture (Sep 2024)
- Python — Kaggle (Jul 2025) · 5 Million Ethiopian Coders — Federal initiative
